Music from the golden years of radio

Winter edition

Highlights from the winter edition now being sent to all members

Communication with Canberra

Capital Community Radio recently hosted a visit by the Communications Minister Mitch Fifield (below).

Morton commented 'I'm so proud to have a community radio station broadcasting from historic Wireless Hill in my electorate'.

A round-up of many emails and phone calls received with feedback from CCR listeners all around the world.

Hidden talents

Some of the amazing off-air talents and stories of our presenters, producers and listeners.

Practice safe slumber

To assist CCR's listeners in keeping themselves as safe as possible, a series of nine informative radio segments addressing the safety and security of seniors at home and in public places were produced at Capital Community Radio's studios.

The ANZAC effect

Capital listeners were treated one of the most informative and emotive radio ANZAC Day coverages in recent years. Such was the effect of the combined efforts of several station presenters it reduced at least one of our crusty old regular listeners to tears.

Where does the money go?

An explanation was given by station presenter and producer Stephanie Faulkner of how the royalties we pay for the use of the music we use finds its way back to the original musicians and artists.

Station Spy

A compilation of some of the memorable, and often sometimes downright embarrassing moments of unpublicised activities at the station.

Make sure you get all the latest news from behind the scenes at your favourite radio station. Become a member and receive your quarterly dose of all this inside info.
